

A full-page background image showing the silhouette of a person with long, dark, curly hair, seen from behind with their arms raised and hands clasped above their head. The scene is lit with a warm, orange-red glow, creating a dramatic and artistic atmosphere.

Study **Photography, BA** at the UE

Explore the visual and technical strategies of the medium of photography, which shapes our present like no other.

Why the UE?

We are in a cultural and historical period in which our society is surrounded and influenced by a wealth of photography like never before. We see it as our task to give students an understanding of the visual and technical skills necessary to understand, critically question, and reflect on different visual languages. Understanding the medium of photography and its conscious use are therefore indispensable not only in art, but also in advertising and editorial work.

The University of Europe for Applied Sciences (UE) has a pioneering study programme in this field. We were one of the first German private universities to set up a photography programme 15 years ago. During your studies, you'll familiarise yourself with and try out various photographic genres, such as portrait, fashion, art, and documentary.

Degree:
Bachelor of Arts (BA)

Credits:
6 semesters, 180 ECTS

Start:
Summer semester - March
Winter semester - September

Languages:
English (Berlin), German (Hamburg)

Locations:
Berlin and Hamburg

- Admission requirement:
- **High school/Bachelor diploma and transcript**
 - **Language qualification, B2 Level**
 - **Curriculum Vitae (CV)**
 - **Copy of Passport** (scanned)
 - **Motivation letter** (min. 500 words)
 - **Portfolio**

2-3 series of photos and fewer individual images (all in all at least 20 images). The photographic projects can be supplemented by other media such as videos, drawings and graphic design.

Perspectives at the UE

The programme is divided into module groups. In the basics, creative skills such as lighting design and image composition, as well as the analogue and digital workflow, are taught.

In parallel, the theoretical subjects provide an overview of historical and contemporary developments in art, photography, design and film. During the course, there is the possibility of specializing in individual genres of photography. Knowledge from other design programmes can be acquired in interdisciplinary courses, workshops and excursions.

Many career paths are possible with the BA as a photographer within the advertising or publishing industry, as a picture editor, art buyer, or as an artist.

All advantages at a glance

- Professional equipment (photo studios, darkroom, print workshop, scan lab, Mac pools as well as rental equipment)
- Internship or semester abroad at one of our partner universities
- Interdisciplinary studies
- Our 'Foundation Diploma' gives you a unique opportunity to learn the basics of our Art & Design study programmes in just one semester plus improve your english to meet UE admission requirements.
- Practice-oriented teaching by experts
- Building an international network and contacts with our collaboration partners
- Support with applications and with job placement through our Career Center
- The programme is supported with UE scholarships
