

Year One Guide

The background of the entire page is a photograph of three students sitting at a desk in a classroom. The image is overlaid with a semi-transparent blue filter. The student on the right is wearing glasses and has their hand near their face, looking thoughtful. The student in the middle is looking down, and the student on the left is looking towards the camera. There are geometric shapes at the bottom: a large red triangle pointing upwards and a smaller blue triangle pointing downwards, partially overlapping the red one.

WHAT IS THE YEAR ONE GUIDE?

This guide is designed to help you understand Redeemer's course structure and the process of choosing and registering for courses. Follow this booklet step-by-step so that you're prepared for course registration.

You can register for courses online through Self-Service or during an appointment with an Academic Advisor in the Registrar's Office. For either option, you need to book a course registration appointment at redeemer.ca/dashboard. If you select the online option, instructions will be emailed to you.

You'll be asked to log into your application portal to select an appointment.

Most first-year students take 10 courses: 5 in the Fall term (September-December) and 5 in the Winter term (January-April).

Redeemer has a Core Curriculum—a set of 10 interdisciplinary courses that every student takes that provides context for all other courses you take at Redeemer, complements your major and ultimately prepares you for your career and calling. In your first year, you will take 2 Core courses in the Fall and 2 in the Winter.

Next, you will add courses from your selected major and minor. Look through the following pages to see what courses are available to you in your first year, and what is suggested for your potential major/minor.

Please note that you may only take 100-level (first-year) courses.

You may still have room to add a few extra courses—these are electives! Look through the course listings on the following pages and pick a few that interest you.

Prepare for your appointment! Use the spaces below to fill in and help decide which courses you might like to take in your first year.

Once you've decided on your courses, you are ready for course registration! Course registration can be done online (if you signed up for that option) or during an appointment with an Academic Advisor in the Registrar's Office at a chosen date and time. If you signed up for the online option, instructions will be emailed to you.
