Q. no	Details of answers- part wise	marks awarded value point wise
1	yes change can be reversed	1
2	muscles	1
3	electric switch	1
4	iron	1
5	landfill	1
6	a>true b>false	1 1
7	No correct reason	1 1
8	A lump of cotton wool shrinks in water because the air present between the fibres of cotton is replaced by water.	2
9	1.All magnets have two poles, north pole and south pole. 2.Like poles of two magnets repel each other and unlike poles of two magnets attract each other.	1 1
10	Salt is obtained from seawater by the process of evaporation	2

12	(i) reversible (ii),(iii),(iv) irreversible	2
13	correct explanation.	3
14	An electrician should wear rubber gloves while repairing electric switch because rubber is an insulator and does not allow electric current to pass through it . Hence, the electrician will not get any electric shock.	3
