[Total No. of Questions: 12]

[Total No. of Printed Pages: 08]

[Time: 03 Hours]

[Maximum Marks: 100]

Instructions:

- (i) **Read the instructions given with the questions carefully.**
- (ii) **Marks allotted to each question is indicated against it.**
- (iii) **Answers should be complete and to the point.**

SECTION – A (Reading)

Q.1 Read the following passage carefully and answer the questions given below it :

Every time a child takes a soft-drink, he is laying the ground work for a dangerous bone disease. No fizzy and sugary drinks don't cause osteoporosis. But because they are often a substitute for a glass of milk, kids are not getting the calcium and vitamins to build a strong skeleton, many of them also lead a sedentary lifestyle, so they aren't getting the bone building benefits from vigorous exercises either. They could be at risk of osteoporosis at a younger age than ever before.

The Indian society for bone and Mineral Research, a body of osteoporosis experts is trying to spread awareness about this bone crippling disease. Osteoporosis starts in childhood but have consequences later in life. This condition causes bones to become riddled with holes, like the frame work of a house that has been attacked by termites that can lead to broken bones, which in turn, can cause deformity, chronic pain or disability. Osteoporosis causes loss of height, pain in joints and back, fractures, and a fear of

fracture which can be very depressing. So it is important that we adopt preventive measures to save millions of people.

There is a new medical understanding of the best way to protect ourselves and our children. "Simple life style changes and nutrition will help save your bones," says Dr. Mittal. It is never too late to adopt bone friendly habits, exercise, get enough sunlight and have adequate calcium intake. This way, we can keep our bones healthy and prevent osteoporosis.

Questions :-

- (i) What are the harms of the soft-drinks? [2]
 - (ii) When does the Bone disease start and what are its effects later? [2]
 - (iii) What work is the Indian Society for Bone and Mineral Research doing? [2]

 - (ii) Write the word opposite in meaning to 'adequate' using prefix. [1]
 - (iii) Write the noun form of 'prevent'. [1]

Q.2 Read the following passage carefully and do as instructed below it :

We have been talking about the evils of child labour for the last many years in this country. But the number of working children seems to be increasing. Instead of building up public opinion against child labour and for compulsory primary education we are still talking about child labour as being necessary for the survival of the family. The debate has not changed greatly in the last 10 years. The result is that children continue to work in the most hazardous conditions and compulsory education is still a dream.

The presence of child labour in hazardous industries is against all human rights. If children are not dying in explosions, they are dying a slow but sure death in the glass, brass-ware, lock, slate, balloon, brick and other industries.

Questions:

- (A) Make notes and give a suitable title to the above passage. [7]
- (B) (i) Find out the word from the above passage which means 'dangerous'. [1]
- (ii) Find out the word opposite in meaning to 'voluntary' from the above passage. [1]
