Section A Reading Comprehension **25 marks**

Section B Writing Skill **20 marks**

Section C Grammar **10 marks**

Section D Text Book **45 marks**

SECTION – A

(Reading Comprehension)

Q.1 Read the passage carefully and answer the questions that follow:

We do not know whether suitable physical conditions are enough in themselves to produce life. Some scientists think that as the earth gradually became cooler, it was natural and indeed almost unavoidable, that life should come. Others believe that it was an accident, which brought the earth into being, and that another accident was necessary to produce life. The materials of which a living body is composed of ordinary chemical atoms – Carbon, such as we find in water; Nitrogen, as we find in the air, and so on. Every kind of atom necessary for life must have existed on the new – born earth. At times a group of atoms might happen to arrange themselves in the way in which they are arranged in the living cell. Indeed, if they were given enough time, they would certainly do

so, just as six monkeys set to work on typewriters for millions and millions of years would be certain in time to type out by chance all the books in the British Museum.

Life of the kind we know can exist only under suitable conditions of light and heat; we ourselves exist only because the earth receives exactly the right amount of radiation from the sun; if the balance is upset in either direction, too much or too little radiation, life must disappear from the earth. And it is very easy for the balance to be upset.

Questions:

- (A) (a) What do the scientists think regarding life on the earth? (2)
(b) What is a living body composed of? (2)
(c) Where do we find Nitrogen atoms? (2)
(d) In what kind of conditions life can exist? (2)
(e) What does the earth receive from the sun? (2)
(f) What would happen if the balance is upset? (2)
- (B) Find out the words from the passage which have opposite meanings to the following words. (1)
(a) Appear (1)
(b) Avoidable (1)
(c) Difficult. (1)

Q.2 Read the passage carefully and answer the questions that follows:

The invention of computers has been one of the greatest advancements in modern technology. Computers are used not only in industries but also in universities. Computers have been used in the service of man in all spheres. Computers are capable of doing extremely complicated work in all branches of learning. They can solve the most complicated mathematical problems or put thousands of unrelated facts in order. These machines can be put to various uses. For instance, they can provide information in the best way to prevent traffic accidents or they can count the number of times a word has been used in the Bible. The computer's work for us has been called 'automation', may enable human being for more leisure than they have today.

Questions:

- (A) Make notes of the contents of the above passage using a suitable format. Use abbreviations as necessary and supply a suitable title. (7)
- (B) Do as directed:
- (a) Write the opposite of 'ancient' from the given passage. (1)
- (b) Write the noun form of 'invent' from the given passage. (1)
- (c) Write the opposite of 'related' from the given passage. (1)

SECTION – B

(Writing Skill)
